STUDENT SUCCESS / THE EXPERIENCE

The work behind the next step.

PERSONALIZED GUIDANCE. PRACTICAL PROGRESS.

01 Establish a shared starting point

Listen to the student and family. Identify current academic or college preparation priorities alongside a habit, skill, or responsibility to develop. Use this understanding to shape the initial plan.

02 Put practical routines to work

Turn selected goals into clear actions and manageable checkpoints. Use schoolwork, an activity, or an existing responsibility to practice organization, planning, and following through.

03 Review progress with continuity

Revisit work, effort, and recurring obstacles. Recognize gains and identify where support remains useful. Adjust the plan as the student discovers strengths or encounters new demands.

04 Build transferable independence

Help the student understand which strategies work and why. When ready, apply what they have learned in another setting and practice making decisions with fewer reminders.

PROGRESS TO DISCUSS TOGETHER

*A plan. Real work.
A clearer next step.*

- 01 An evolving personalized plan
- 02 A record of work and reflection
- 03 Progress reviews and continuing priorities

PROGRAM SCOPE

Approximately 10 months during one school year. Meeting frequency, communication, deliverables, and specific priorities are agreed at enrollment.
